Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed that there are no commercial premises currently involved and there is no public health risk due to this virus.
- 1 AmeriCorps San Diego and 1 San Bernardino County volunteer Spanish language interpreter responded to conduct surveillance (education/outreach), with two more arriving on 06/04/18.
- 1 Community Emergency Response Team (CERT) Spanish language interpreter arrived on 06/03/18.
1 LISTOS Spanish language interpreter arrived on 06/03/18.
- The USDA National Incident Management Team (IMT) arrived on 06/01/18 and are teamed up with CDFA personnel at the CDFA Ontario District Office. Each section is being briefed by CDFA personnel.
- The Cal OES AREP is facilitating contact with San Bernardino County Waste Management-Public Works to determine the possibility of using sites for disposal of dead birds.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployments

- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an AREP with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief (Log Chief) deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

Logistics

Per the Cal OES Southern Region AREP on 06/03/18 at 0826 hours:

- Cal OES Southern Region along with Cal OES Logistics continue to assist CDFA in identifying a facility to expand operations in the immediate area of the CDFA district office in Ontario, San Bernardino County.
 - The Agency Representative coordinated with the County and city of Ontario for possible use of a facility at the Ontario International Airport. The information was forwarded to the Logistics Chief and ICP Incident Commanders.
 - One facility was inspected on 06/02/18 as a potential location. The facility was unacceptable.
 - The negotiations continue.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

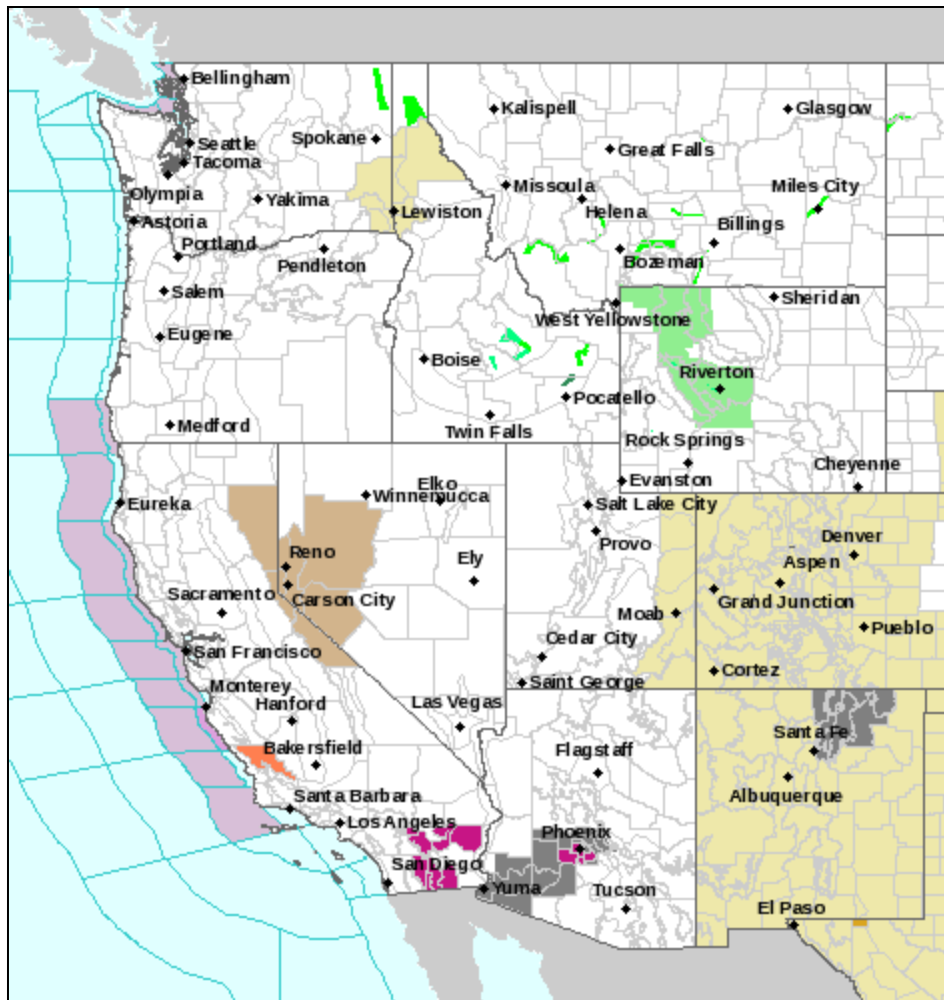

A Pacific low pressure trough is approaching the coast, and it will be the dominant weather feature for the region during the upcoming week. Inland areas will be hot and dry again today, with light winds until late afternoon. The warmest inland areas will be 95-100 degrees and relative humidity (RH) will drop to 8-18% again this afternoon. Late in the day winds will increase and conditions will become less stable, leading to afternoon cumulus buildups over the mountains and a slight chance of showers or thunderstorms in the north. Coastal areas, the eastern Bay Area, and the delta will see W-NW winds increase this afternoon, with gusts reaching 25-35 mph. SE-SW wind gusts will increase to 25 mph in the Sacramento Valley and bring cooler and more humid air northward late in the afternoon. S-W gusts will reach 20-30 mph over the higher terrain late this afternoon, and outflow gusts from any thunderstorms could reach 30-40 mph. In many inland areas there will be a period of hot and dry conditions with gusty winds late today before humidity climbs, briefly elevating fire potential.

SOUTHERN CALIFORNIA

Very warm and dry through Monday

The ridge of high pressure over California will peak in strength today causing temperatures to be 10 to 15 degrees above normal away from the coastal areas, with upper 70s and 80s across the mountains and 90s to 102 in the valleys. The ridge will move east and be centered over the Desert Southwest bringing a few degrees of cooling to the region Monday. Minimum humidity will be mainly in the teens away from the coastal areas through Monday, except there will be widespread single digits across the deserts. Temperatures will cool to near normal and minimum humidity will increase to 15% to 30% away from the deserts Tuesday through Thursday as a weak Pacific trough forms off the West Coast and remains nearly stationary. Morning low clouds and fog from the marine layer will make it into the coastal valleys Tuesday through Friday. Southwest to west afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will surface across the desert passes Monday through Thursday. Strong high pressure will form over Texas this week and it will start to expand westward Friday through next weekend bringing a gradual warming and drying trend to the area.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-47073, 06/02/18, 1257 hours:** IRECC reports a Delorme In Reach device activation at 38° 03' 51" N / 120° 13' 60" W, Stanislaus National Forest, Tuolumne County. Tuolumne Sheriff Dispatch advised by LDO; they already had the report of a subject down with CPR in progress at that location. Helicopter and ground crews dispatched. TCSO reports deceased subject at the scene, unknown cause, appears medical. Helicopter canceled by TCSO. **Mission Closed**
- **2018-LAW-47065, 06/2/18, 1453 hours:** IERCC reported a Delorme In Reach activation at 39° 11' 6" by -120° 45' 39", which plots to the Giant Gap area of the Upper American River in Placer County. Placer County Sheriff was contacted and accepted the mission. They used a CHP helicopter to locate and extract the victim, who has suffered a probable stroke. Victim transported for medical attention. **Mission Closed**
- **2018-LAW-47049, 05/31/18, 0242 hours:** Kern County Sheriff's Department, requested a helicopter with night vision to assist in the search for a 2 year old female that walked away from her home. Searchers followed tracks to 34° 53' 41" by -118° 23' 47" but lost the track and have not located the child. A Navy helicopter from China Lake Naval Weapons Center was requested for the search. **UPDATE:** The missing child was playing with a small dog in the front yard of her home when she walked away. She was dressed in a diaper and pink shirt, no shoes. Kern County Sheriff worked through the night to conduct extensive searches of the desert area around the home. Kern County deployed significant SAR ground personnel, and helicopters from China Lake Naval Weapons Center, LA County Sheriff and Kern County Sheriff. Initial searches were not successful. Law Branch deployed a representative to the Incident Command Post. At about 1000, Kern County requested trailing dogs and additional air resources. At about 1300 hours Kern County SAR personnel located the child. She was dehydrated and overheated but otherwise uninjured. She had walked barefoot across the desert for a distance of about 3.1 miles. Mutual aid resources were cancelled. **Mission Closed**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
